JWDA Floor Lamp

BY JONAS WAGELL

REWORKING THE DIMENSIONS OF THE JWDA TABLE LAMP TO CREATE A PARED-BACK LIGHT WITH A BOLD PERSONALITY, THE FLOOR LAMP IS THE LATEST ADDITION TO THE SERIES. THE SIMPLE, STANDALONE DESIGN MERGES CONTRASTING ELEMENTS TO ELEGANT EFFECT: SET ON A STEM OF BRONZED, BRUSHED OR SOLID BRASS, THE SHADE IS FORMED FROM OPAL GLASS INTO AN ELLIPTICAL SHAPE, WHILE THE BASE RETAINS ITS CHARACTERISTIC FORM, CRAFTED FROM MARBLE WITH GENTLY ROUNDED EDGES AND PUNCTUATED WITH A DECORATIVE DIMMER SWITCH IN BRUSHED OR BRONZED BRASS.

Part of a collection of lighting inspired by traditional oil lamps, the JWDA Floor Lamp takes the expression of the collection's table lamp to elegant new heights. Pared back to its purest form, the lamp is a study in the contrasts of natural materials: set on a substantial marble base, rounded at the edges for a soft expression, the elegant tubular metal stem – available in brushed or bronzed solid brass – holds an elliptical opal glass shade that emits a soft, ambient light.

A brass dimmer switch lets you control the brightness of the bulb – for reading or relaxing, or simply to create ambience in a room. Conveying a sense of familiarity and warmth, the JWDA Floor Lamp illuminates any setting with bold elegance.

JWDA Floor Lamp

BY JONAS WAGELL

The JWDA Floor Lamp is part of a collection of lighting inspired by traditional oil lamps. Crafted from contrasting materials, the elegant yet bold design is a lesson in refinement and a study in geometry. An elliptical opal glass shade, a slender metal stem, and a rectangular marble base fitted with a dimmer switch come together to create this timeless addition to modern spaces.

TR Collection

BY TIM RUNDLE STUDIO

DESIGNED FOR MENU BY TIM RUNDLE, THE TR BULB'S ITINERANT DESIGN MOVES SEAMLESSLY, INSTALLED BY SIMPLY SCREWING IT INTO PENDANT SOCKETS. THE CORRESPONDING COLLECTION OF LIGHTING FIXTURES IS NOW UPDATED WITH THE ADDITION OF BRUSHED BRASS AND BRASS, AVAILABLE AS A PENDANT LIGHT, TABLE LAMP, CEILING SUSPENSION FRAME, WALL LAMP AND CEILING LAMP TOGETHER WITH THE CORRESPONDING BULB. THE DIMMABLE AND DECORATIVE GLASS BULB IS NOW ALSO AVAILABLE WITH A DIM TO WARM EFFECT, TRANSFORMING FUNCTIONAL WHITE LIGHT TO COSY AND AMBIENT ILLUMINATION.

The TR Collection brings beauty to modern spaces with its elegant opal glass bulb and transformative geometric fixtures. The TR Bulb is a clever solution for modern city living, inspired by our increasingly nomadic lives, moving between cities and countries to pursue life experiences.

The versatile TR range is expanded further with the addition of brushed brass and brass fixtures to the collection. Combining form and function in a single, multi-functional object, the flexible design looks stylish in any setting and formation – pendant light, table lamp, suspension frame, wall lamp or ceiling lamp. Fixtures are also available in powder-coated steel and grey marble.

Versioned in opal glass with a shiny or matte finish, the dimmable, portable bulb that plugs into any pendant socket is now available with a dim to warm feature that allows the user to create ambient lighting in an instant.

TR Bulb Collection

BY TIM RUNDLE

Providing a clever solution to modern needs, the TR Bulb is inspired by our nomadic lifestyles: the opal glass LED bulb is fully portable, designed to be taken from space to space, and installed by simply screwing it into a pendant socket. Emitting an ambient glare-free glow, with a dim to warm function, it can be used alone or in combination with the corresponding fixtures – pendant light, table lamp, suspension frame, wall lamp and ceiling lamp – all of which are designed to be equally portable, wired, hung or plugged in, as required.

Light That Always Feels Natural

SCANDINAVIANS KNOW GOOD LIGHTING. PERHAPS AS A RESULT OF OUR LONG NORDIC WINTERS, THE REGION HAS FOUND A WAY TO CREATE LIGHT THAT FEELS NATURAL IN SPACES BOTH COMMUNAL AND PRIVATE. THERE IS NOTHING QUITE LIKE A WARMLY-LIT CAFE IN WINTER TO MAKE US FEEL WELCOME AND CARED FOR – AND THAT IS PRECISELY THE LIGHT AND THE FEELING MENU LIGHTING AIMS TO BRING TO YOU, WHEREVER YOU ARE.

As any good photographer or interior designer will tell you, the right lighting is essential to bringing a space to life. And while the light might not be the first thing we notice when we enter a room, it not only contributes to our experience of a space: it defines it. It not only guides our sight: it creates ambiance. MENU's lighting comes in a wide variety of shapes and sizes. And the continued focus on clean lines and quality materials allows the pieces to enhance – and in many cases transform – any setting, from hotel lobbies to private living rooms.

The new lighting in our collection bridges modern good looks and excellent illumination, with several designs incorporating technical advancements that are changing the way we interact with our luminaires. The Task Pendant brings a sculptural and futuristic beam of light to spaces that call for quiet yet powerful illumination. It can be suspended as a single horizontal line or in dynamic, mobile-like groups – and features the E3 Smart Lighting System, which is easily controlled via an app. The Circular Lamp, soft and organic as it may appear, is also technically savvy, featuring an integrated light sensor and the same E3 Smart Lighting System with an app for controlling light intensity and color temperature. The compact Column Table Lamp meets a different need, offering portable ambience. And the Manhattan-inspired Bank Pendant brings a light-diffusing 1920s form into the modern era, its pairing of mouth-blown glass and aluminum hardware radiating warmth, if not a bit of nostalgia.

Whether you are seeking to create a cozy nook, integrate effective task lighting, or lend great ambience to an entire room, this array of inventive light forms offers something for every space, need and mood.

Bank Pendant

BY NORM ARCHITECTS

INSPIRATION CAN COME FROM THE MOST UNEXPECTED PLACES. ON A VISIT TO NEW YORK CITY, A CERTAIN VINTAGE-STYLE PENDANT REPEATEDLY CAUGHT THE EYES OF NORM ARCHITECTS' FOUNDERS JONAS BJERRE-POULSEN AND KASPER RØNN AS THEY STROLLED LOWER MANHATTAN'S FINANCIAL DISTRICT. THE FORM – BORN IN THE 1920S – SOON UNDERWENT A MODERN MAKEOVER IN THE DESIGNERS' IMAGINATIONS, BECOMING THE STYLISH NEW BANK PENDANT. AT ONCE NOSTALGIC AND NOVEL, THE DESIGN PAIRS BIG-CITY GLAMOUR WITH AN INTIMATE SENSE OF WARMTH.

Bare bulbs first sought shelter in opaque glass globes in the 1920s. Clean in their form and practical in their even distribution of light, the structures became popular bearers of good task and ambient lighting. Classrooms, libraries, courthouses, banks and kitchens alike welcomed these hardworking pendants, also known as "schoolhouse lights." As demand for the style grew, the original white, flared globe took on more geometric forms with fancier metal fittings. In the 20s and 30s, during the Art Deco period, one form in particular – an unexpected half-moon – became especially common.

Norm Architects' take on the retro pendant reflects the designers' focus on functional, simple, and timeless objects that leave nothing more to add or take away. In the Bank Pendant, ornamentation has been removed to reveal the essence of the omni-light form, which generates 320-degree illumination. The pairing of opal or smoke mouth-blown glass with black powder coated aluminum creates beautiful contrasts, with gently curved edges throughout the design creating the soft, unified expression Norm Architects are known for.

Purposeful and versatile, the Bank Pendant accommodates any E27 bulb, allowing you to create the desired ambience with soft, glare-free light. A special fitting featuring a wire makes it easy to ensure that the shade always hangs evenly.

Like its 1920s predecessors, the Bank Pendant finds itself at home in historic landmarks, bistros, offices and other public spaces – and proves just as adept at lending ambience to private homes.

Bank Pendant, Black/Smoke Glass, by Norm Architects
Bank Pendant, Black/Opal Glass, by Norm Architects

Bank Pendant

BY NORM ARCHITECTS

The Bank Pendant is an indoor, semicircular pendant crafted from opal or smoke mouth-blown glass and black powder coated aluminum fittings. The opaque glass gently diffuses 360-degree light from any E27 bulb, creating ambience and providing excellent task lighting. The pairing of opaque glass and fine metal lends the product enduring quality, tactility and longevity. A special fitting with a wire ensures that the unique glass shade can easily be adjusted to hang evenly.

Bank Pendant, Black/Smoke Glass, by Norm Architects

"THERE IS SOMETHING UNEXPECTED ABOUT THE SHAPE OF THE GLASS THAT MAKES THE PRODUCT INTERESTING FROM AN AESTHETIC POINT OF VIEW. IT IS MORE INTRIGUING THAN A PERFECT SPHERE AND TAKES YOU BACK TO A DIFFERENT ERA."
– JONAS BJERRE-POULSEN, NORM ARCHITECTS

Tribeca Series

BY SØREN ROSE STUDIO

INSPIRED BY THE INDUSTRIAL GLAMOUR OF RAPIDLY CHANGING 1930S MANHATTAN, DESIGNER SØREN ROSE DEVELOPED THE BOLD AND TIMELESS TRIBECA SERIES. ROSE EXPERIMENTED WITH BEAUTIFUL OLD LAMPS AND REUSABLE PARTS, REARRANGING AND MIXING THEM TOGETHER TO CREATE AN ELEGANT, RETRO-CHIC ARRAY OF LAMPS, PENDANTS AND CHANDELIERS. THE TRIBECA DESIGNS' ELONGATED ARMS EXPAND INTO SPACE IN A MANNER BOTH SCULPTURAL AND PRAGMATIC, DEMONSTRATING HOW SIMPLE AN IDEAL LIGHTING SOLUTION CAN BE.

Hubert Series

BY SØREN ROSE STUDIO

THE HUBERT SERIES WAS CONCEIVED BY NEW YORK CITY-BASED DESIGN FIRM SØREN ROSE STUDIO. THE FUNCTIONAL FRAME, SIMPLE LINES, AND WARMING BRASS INTERIOR CREATE A LIGHT THAT IS AT ONCE UNOBTRUSIVE AND BEAUTIFUL.

An off-shoot of the beloved Tribeca series, the Hubert series includes the Pendant Ø24, Pendant Ø45, and Suspension Frame. The series builds upon those materials – steel and brass – and introduces a number of pendant and suspension options. The lamps are pared down in a way that emphasises the materials and the quality of the light.

Hubert Pendant ⊠24 – The Hubert Pendant, previously only available with a black frame, now comes in ivory. This elegant update on the classic look keeps the profile minimalist, while adding a touch of femininity to the silhouette. The pendant could be used in any number of settings, from a home kitchen to a public cafe.

Hubert Pendant ⊠45 – Just like the Hubert Pendant, but bigger. The 45 takes on a lighter feel thanks to a larger and more shallow frame. The industrial silhouette and functionality remain due to the high-quality materials.

Hubert Suspension Lamp – The Hubert Suspension Frame comes with three lamp shades attached, giving it an industrial feel while maintaining a sleek and minimalist aesthetic. Though this look is most commonly found in commercial spaces like hotels and restaurants, it would also look spectacular in a modern home, lending an air of drama above a dining room table or kitchen island.

Hubert Pendant

BY SØREN ROSE STUDIO

A minimalist pendant lamp rendered in steel and brass, the Hubert Pendant is now available in ivory as well as the original black. The pendant is simple enough to use in almost any setting, from home kitchen to commercial space.

The larger version of the Hubert Pendant lamp brings the same pared-down style to overhead lighting. The wider and more shallow silhouette keeps the pendant from feeling overbearing. It is also available in black and ivory.

TR Collection

BY TIM RUNDLE STUDIO

THE POWER OF THE NOMAD-INSPIRED TR BULB LIES IN ITS FLEXIBILITY: IT LOOKS STYLISH IN ANY SETTING AND FORMATION, AND CAN EASILY BE TAKEN FROM SPACE TO SPACE AS WE MOVE HOMES OR OFFICES. TO BE USED AS A SIMPLE AND ELEGANT GLOBE LIGHT, THE BULB REQUIRES NOTHING MORE THAN AN E27 SOCKET.

We live increasingly nomadic lives, moving homes and workplaces with a new level of untethered ease. So why don't the objects we surround ourselves with do the same?

The TR Bulb design stemmed from this very question. Bridging technical sophistication and modern aesthetics, designer Tim Rundle stepped away from the lighting playbook to reimagine the potential of the LED light bulb. With simplicity as his guide, he combined form and function in a single, multi-functional object. The power of the resulting TR Bulb lies in its flexibility: it looks stylish in any setting and formation. It is both easy to move around and easy to install. To become an elegant globe light, the TR Bulb requires nothing more than an E27 socket.

MENU's first collaboration with London-based Rundle, the TR Bulb emphasizes longevity as much as utility and appearance. Long-lasting LED technology pairs with a robust construction, with an aluminum core structure drawing heat away from the LED so the bulb can run at its optimum temperature. Following the success of the original TR Bulb in opal glass with a matte finish, the range has been expanded with a shiny opal finish, which lends the bulb a more classic expression. The TR Bulb is dimmable and available individually or with MENU's specially designed range of accessory fittings. Pure in their geometry, the fittings are crafted from thin black steel tubes and grey marble discs, instantly transforming TR Bulbs into wall and ceiling lights, table lamps, or linear chandeliers.

JWDA Series

BY JONAS WAGELL

AN INSTANT CLASSIC, THE JWDA LAMP IS THE KIND OF SCULPTURAL PIECE THAT TURNS HEADS AND BRINGS NEW LIFE TO A ROOM. THE CONTRAST OF THE DELICATE, ROUNDED GLASS WITH THE STURDY METAL BASE MAKES FOR A BALANCED AND INTRIGUING SILHOUETTE.

What is it about the JWDA Lamp that makes it so popular? Could it be the soft light that diffuses gently on a bedside table, desk, dining setting, or bookshelf? Or the artistically-rendered base? Perhaps it's the quirky egg-shaped bulb, working in perfect balance with the base to create a simply yet striking look.

Carrie LED Lamp

BY NORM ARCHITECTS

THE CARRIE LED LAMP EMBODIES WHAT MAKES SCANDINAVIAN DESIGN GREAT: MINIMALISM, INNOVATION, LOVE OF LIGHT, AND THE INDEFINABLE "HYGGE". THE PORTABILITY AND DIFFUSE GLOW MAKE IT USEFUL FOR BOTH INDOOR AND OUTDOOR LIGHTING.

Designed by Copenhagen-based Norm Architects as a portable, lightweight lamp, the Carrie LED Lamp is unique for its multiple uses and mutability. With a sleek, functional handle and a warm orb of light nestled gently in a basket-like base, the lamp is useful almost anywhere; even on the go, as it is cordless and comes with a USB charger. Move it from your office to your bedside table, to your evening picnic in the park, and in your bicycle basket as you ride home. The cosy light created by this special piece of lighting brings comfort and sophistication wherever you are.

Circular Lamp

BY STUDIO WM

SMART TECHNOLOGY HIDDEN IN A SOFT, ORGANIC FORM THAT APPEARS ANYTHING BUT TECHNICAL: THIS IS THE BEAUTIFUL CONTRAST THAT DEFINES ROTTERDAM-BASED STUDIO WM'S NEW CIRCULAR LAMP. THE INDOOR PENDANT WAS CONCEIVED TO MEET OUR CONSTANTLY CHANGING LIGHTING NEEDS. TO DO SO, IT COMES WITH AN APP, MAKING IT EASIER THAN EVER TO ADJUST BOTH THE LIGHT INTENSITY AND COLOR TEMPERATURE TO BEST SUIT THE TIME OF DAY, THE SEASON, OR THE DESIRED AMBIENCE.

The Circular Lamp's sophisticated reflector uniformly distributes diffused, comfortable light that does double duty as both task lighting and general, mood-setting room illumination. Imagine switching the mood in the office from work to happy hour, or shifting gears from well-lit cooking to intimate entertaining in the home kitchen – all with just a few taps on your phone or tablet, from anywhere you happen to be. It's that simple.

Clean, modern lines lend the Circular Lamp architectural versatility and open up endless decorating possibilities. The Circular Lamp is available in anodized or powder coated aluminum, in either brushed bronze or black, both with a fabric-covered electric cable that gently flows into the shade, bringing focus to its elegant shape. Although the lamp is quite large, its slender, refined profile makes it suitable for spaces big and small. Hang it solo or in multiples, staggered or in neat rows, in one finish or both: it's easy to define areas and create playful visual effects with various installations.

Using the mobile app, you can control the pendant's light intensity and color temperature. You can also add multiple fixtures to the same system, making it easy to control one or many lamps with the swipe of a finger. If the lamp is installed without the app, it defaults to a medium temperature and intensity for everyday work and life.

The MENU Lighting App is available for both Apple and Android devices. Download the MENU Lighting App from Apple App Store or Google Play Store by searching "MENU Lighting". The application is free to download.

Task Pendant

BY GRY HOLMSKOV

THE NEW TASK PENDANT BY DANISH DESIGNER GRY HOLMSKOV STRIKES A HARMONIOUS, BREATHTAKING BALANCE BETWEEN FUNCTION AND AESTHETICS. ITS PURE, LINEAR FORM NOT ONLY CATCHES THE EYE BUT ALSO SERVES A KEY PURPOSE: TO SPREAD LIGHT IN A WAY IDEAL FOR COUNTLESS APPLICATIONS, GIVING RISE TO NEW, FLEXIBLE WAYS OF ILLUMINATING DIVERSE SPACES. THE PENDANT'S LIGHT INTENSITY AND COLOR TEMPERATURE CAN BE ADJUSTED WITH AN APP, MAKING IT EASIER THAN EVER TO CREATE THE BEST ILLUMINATION FOR THE TIME OF DAY, SEASON, OR DESIRED AMBIENCE.

Lightweight yet strong in its construction, the Task Pendant emits directed, adaptable, downward, wide-angle light via an elegant LED bulb that can fully illuminate a conference table. It is suspended from nearly invisible fishing wire, creating the illusion of hanging freely in mid-air. Both in its pared-down form and soft, pleasant light, the design makes a statement without ever becoming obtrusive. This balance makes the Task Pendant an essential, welcome part of the décor above conference tables, bar areas, lobbies, lounges, counters, and other spaces enhanced by glare-free illumination designed for human movement and interaction.

Holmskov's minimalist design works beautifully on its own and can be installed in multiples in infinite arrangements, creating continuous rows or sculptural, randomized displays of light. Clustered and installed at various heights and angles, the pendants create a graphic, dynamic setting ideal for hallways, stairwells and other spaces with high ceilings.

Using the mobile app, you can control the pendant's light intensity and color temperature. You can also add multiple fixtures to the same system, making it easy to control one or many lamps with the swipe of a finger. If the lamp is installed without the app, it defaults to a medium temperature and intensity for everyday work and life.

The MENU Lighting App is available for both Apple and Android devices. Download the MENU Lighting App from Apple App Store or Google Play Store by searching "MENU Lighting". The application is free to download.

Snaregade Bar Table, Black/Charcoal Linoleum, by Norm Architects

Cast Lighting Series

BY TOM CHUNG & JORDAN MURPHY

WHAT DOES IT REALLY MEAN FOR A DESIGN TO BE TIMELESS? AT MENU, WE APPLY THE TERM TO CONCEPTS THAT CARRY ARCHETYPAL WEIGHT, HARKING BACK TO BYGONE ERAS AND ECHOING FAMILIAR FORMS.

Such is the nature of the Cast Lighting Series. Designers Tom Chung and Jordan Murphy based the first designs – the Cast Pendants – on age-old plumb weights that masons and carpenters have been hanging from lines since ancient Egyptian times to establish a true vertical.

From there, the design duo evolved the compact, geometric lighting concept into the Cast Sconce Wall Lamp, ensuring that no corner remains without pleasant, glare-free illumination delivered via sophisticated, sculptural fixtures.

The Cast Lighting Series' aesthetic presence rivals its versatility: a successful lamp design must, after all, contribute to the room's ambience both when it is turned on and off. The series also channels MENU's philosophy of soft minimalism, offsetting strict, geometric forms rendered in industrial, cast aluminum with a smooth, warm and tactile finish.

Column Table Lamp

BY NORM ARCHITECTS

INSPIRED BY THE BOLLARDS ONBOARD SHIPS, THE NEW COLUMN TABLE LAMP FROM NORM ARCHITECTS COMBINES TECHNOLOGY AND MOOD-SETTING STYLE IN A STRIKING MUSHROOM SHAPE WITH MODERN EDGE AND A NATURAL FEEL.

It's a design that embodies freedom. Freedom of form in its bold, cylindrical elements. Freedom of light in its dimmable LED bulb. And, perhaps most importantly, freedom of movement, as the cordless Column Table Lamp can go wherever you do, and is rechargeable via a USB charger. Sprinkle them throughout the office to bring a warm, relaxed ambience to counteract the usual fast pace. Set it down on the lounge coffee table or on the terrace as you enjoy post-dinner conversation or drinks. Use them in the lobbies of hotels or restaurants to draw people in – and swap out the standard table candles with something sturdier and more conversation-worthy. Lightweight and durable, with a beautiful finish, it's a design you'll want to try out in all your favorite spots.

The Column table lamp's warm, comfortable light makes any space more inviting, and fits into every décor, from the classic to the ultra-minimalist. The indoor table lamp is constructed from anodized aluminum. It is cordless and rechargeable via a USB charger. The LED lightbulb produces soft, diffused, comfortable light with three settings. The design is available in a bronze finish.

Cast Pendants

BY TOM CHUNG & JORDAN MURPHY

The Cast Pendant takes its inspiration from functional cast metal objects and the graphic qualities of traditional plumb weights, hanging from a line used by masons and carpenters since Ancient Egypt. Versatile and naturally assimilating into the décor of any room or forming a sculptural installation by hanging one lamp on its own or clustering several into a striking installation, the Cast Pendant embodies MENU's philosophy of soft minimalism and quiet tactility.

Cast Sconce Wall Lamp

BY TOM CHUNG & JORDAN MURPHY

DESIGNERS TOM CHUNG AND JORDAN MURPHY, THE DUO BEHIND THE INSTANTLY RECOGNIZABLE, INDUSTRIAL CAST PENDANT DESIGN, HAVE ADAPTED THE SMALL BUT MIGHTY SHADE CONCEPT FOR WALL APPLICATIONS. WITH A PRESENCE THAT RIVALS ITS FUNCTIONALITY, THE COMPACT NEW CAST SCONCE WALL LAMP UNITES TRIANGULAR, LINEAR AND ROUND ELEMENTS INTO A SOPHISTICATED GEOMETRIC SILHOUETTE THAT CONTRIBUTES TO THE ROOM'S AMBIENCE BOTH WHEN THE LAMP IS ON AND OFF.

What does it really mean for a design to be timeless? At MENU, we apply the term to concepts that carry archetypal weight, harking back to bygone eras and echoing familiar forms. At the same time, these designs' simplicity makes them unquestionably modern. There is little ornamentation, and every element carries meaning and purpose.

Such is the nature of the Cast Lighting Series. Chung and Murphy based the original cast aluminum pendant on age-old plumb weights that masons and carpenters have been hanging from lines since ancient Egyptian times to establish a true vertical.

Continuing the pendants' graphic expression, the Cast Sconce Wall Lamp also incorporates new components to establish a distinct identity. So while it beautifully complements the Cast Pendants, the wall lamp also hangs comfortably on its own, bringing soft, glare-free light to living spaces, hotel rooms, or passage areas. The thoughtfully designed brushed brass vertical bar and mounting plate create an engaging form that naturally assimilates into the décor of any space.

Like the Cast Pendants, the Cast Sconce Wall Lamp is designed for both commercial and residential use.

Bollard Lamp

BY SHANE SCHNECK

Lighting can be innovative or simple, but rarely does it excel at being both. American designer Shane Schneck strives for both, bridging the worlds of design and technology. The cleverly designed silicone lamp Bollard may look like a simple pendant, but it is in fact four lamps in one. Hang it from the ceiling as a pendant, angle it as spotlight, place casually on a shelf or use to beam light up by placing on its foot.

Stone Lamp

BY NORM ARCHITECTS

Though perfectly suited as a lamp, Stone Lamp provides more than enlightenment to your home. Stone Lamp can be placed anywhere and exudes a delightful ambience in the room. The intention of Norm Architects was to create a soft cosy light with the same effect as candles, which could be placed in any corner of the home to create a nice atmosphere. Stone Lamp is available in two variants, a grey smoke-tinted glass shade on a stoneware base and an opal glass top on a raw sand coloured ceramic base.

Peek Lamp

BY JONAS WAGELL

"A lamp with personality" is how Peek Table Lamp has been described. Jonas Wagell's quirky yet utterly practical Peek Series began with a floor lamp, created to accompany a sofa he designed. "I find that floor lamps are often big and dominant," Jonas explains. An antidote to overbearing lamps, he conceived his new lamp to literally "peek" over a sofa or armchair. The proportions have shrunk for the Table Lamp, with a dip in the top of the base for needful things – earplugs or jewellery.

GM Pendant Series

BY GRETHE MEYER

It is used everyday, therefore it deserves to be beautiful as well as practical. That was the philosophy of pioneering designer and architect Grethe Meyer (1918–2008), a trailblazer for women in the industry. Grethe designed for the way people live, spending hours watching and analysing before putting pen to paper. The lamp is available in two sizes. Hang one over the dining table, two smaller ones as a pair, or install together in bunches.

Dancing Pendant

BY ISKOS–BERLIN

Design is an art of storytelling according to Copenhagen duo Iskos-Berlin, and their Dancing Pendant puts that principle into practice. Exquisite yet with a playful twist, the lamp has the look of a dancer's pleated skirt caught flaring-up mid-twirl.

DANCING PENDANT

On The Edge Lamp

BY NOIDOI DESIGN STUDIO

A multi-purpose lamp, unexpected and functional, On the Edge is designed for use as a pendant, table lamp and a floor lamp. Ideal for adding warmth and atmosphere to neglected corners of the room, adjust the angle of the light by turning the lamp on to a different side.

Socket Occasional Lamp

BY NORM ARCHITECTS

Socket Occasional Lamp represents part of a study exploring the boundaries between minimalist sculpture and practical everyday objects by Danish design duo Norm Architects. A weighty, heavy lamp cast from brass, Socket Occasional Lamp is designed to fit perfectly on the desk, shelf or a nook in the home that needs to be lit. The inserted socket is easily removed, so that – with or without a bulb – the lamp also functions as a paperweight. The lamp is inspired by Norm Architects' recent work with geometric jewellery. "In our work, we aim for geometrical purity," the designers explain. "We want to arrive at the maximum expressivity with the minimum of expression. It's not about designing less of product. It's about soft, streamlined shapes that invite you to touch them."
