Nostalgic collectibles design

Do you remember when the world was small and straightforward? When a puddle was an ocean? When the hill behind the last house on the street was a mountain? And when the apple grove with the ten trees was a “Tarzan forest”? We remember all this like it was yesterday. And we don’t only reminisce on the happy boyhood experiences; we revive them.

Boyhood is a Danish design company. We design and produce modern design objects deriving from a fantastic boyhood ingenuity. The collections are developed by designer Jakob Burgsø who creates the objects in natural materials of high quality, mainly oak wood, from a proud Scandinavian tradition of craftsmanship.

Boyhood products perfectly matches homes, workplaces and other settings where you want to create a unique atmosphere. Not only are the design objects created to look amazing; they also inspire happy memories of good times and put a nostalgic smile on your lips.

BOYHOOD X MOOMIN

OFFICIAL LICENCED
BY
MOOMIN CHARACTERS LTD.

BOYHOOD is launching a new official collaboration with the global brand Moomin to design and produce the loving Moomin characters. BOYHOOD is bringing back childhood memories in simple wooden design collectibles making the Moomin x Boyhood partnership a great match.

The Moomin series contains some of the most beloved characters from the Moomin universe created by Tove Jansson in 1945. The first launch will feature the heart of the Moomin universe – the Moomintroll.

The Moomin family is really excited about the project. *We were immensely impressed when we saw Boyhood's wooden Moomin figurines for the first time. They bring Tove Jansson's treasured stories to life in a stylish and caring way, applying the finest Nordic design principles. Given the role of nature and the Moomin family's handicraft in the stories, the touch and feel of these figurines is spot on. We also share the values of family-owned companies looking far ahead to the future; such collectible, well-designed products will bring joy to many generations. They are design classics in the making",* says Roleff Kråkström, CEO, Moomin Characters Ltd.

Fröbel Star Christmas Ornament

As a child you probably experienced that grownups became more cheerful around Christmas time and found the energy to bake and create Christmas decorations. One of the most beloved home-made Christmas decorations is the braided, sixteen-pointed Fröbelstar, folded by strips of paper.

The star has now become a luminous memory of the childhood joy of Christmas – here made in solid oak with soft edges. It finds its natural place in the windowsill or on the Christmas table.
